## Exam excellence for Maria Fidelis GCSE students

Students at Maria Fidelis Catholic School are celebrating today after achieving excellent GCSE results across a variety of subjects. Results surpassed the national average, with 64% of students achieving 5+ A\*-C grades including English and Maths. In a year when the English pass rate fell nationally, the school achieved over 10% above the national average.

Subject highlights include 100% pass rates in Chemistry and Biology with over 40% at A\*/A, 95% of students achieving A\*-C in Physics and 96% in Latin, with a staggering 71% at A\*/A, a credit to the outstanding quality and academic excellence of our specialist Classics department.

We are incredibly proud of our students, whose dedication and hard work is evident in their success. There were also some exceptional individual performances from students including Isabel Osco Calderon, who achieved a remarkable 10 A\*/A grades across a variety of subjects, and Jarin Chowdhury who gained 9 A\*/A grades. Both students have ambitious plans to study medicine at university. Top performer this year was Morsale Ghafooryar, who achieved 13 A\* grades including English, Maths, Latin, French and Science. She is looking forward to continuing her studies in the Maria Fidelis Sixth Form.

Helen Gill, Headteacher said, *"I am proud of the high level of attainment this year and would like to congratulate all students, their families and staff. The overall increase in the number of students achieving 5+ A\*-C grades (including English and Maths) and the substantial increases in our students' levels of progress across both English and Maths, is a testament to the dedication and exceptional work ethic of our school community. We are an ambitious school and I look forward with great anticipation to the new academic year; we are determined to develop this success even further."*
