Dear Parents/Carers,

Re.: Homework and Assessment Information

Please find attached an outline of the topics covered and the assessments your child will sit from now until December. As before, please note that although pupils may sit a number of assessments in a given week, we understand the need to support them in doing so. For example, our curriculums are designed as spiral curriculums that ensure pupils are continually given opportunities to review prior learning before final assessments. We will also endeavour to set homework that is linked to upcoming assessments so that pupils are able to consolidate learning.

Please also see overleaf for the days that each subject sets homework. Please note that core subjects (English, Maths, Science and RE) set homework weekly, whilst all other subjects set homework fortnightly. All subjects give pupils at least one week to complete homework. If your child is having difficulty with the homework, this should therefore give them sufficient time to see their teacher before the homework is due. Please also note that support is available in homework club, which runs Monday – Wednesday from 3:05-4pm.

If you require further information, please find below the email address of each Head of Department; I am also available to answer any questions.
